WEB DEVELOPMENT ACTIVIY BASED LEARNING

3. YOGA AND MEDITATION

1. Problem Statement

In today's busy lifestyle, people often experience stress, lack of physical activity, and difficulty maintaining mental well-being. A Yoga and Meditation Website provides an online platform to learn yoga poses, practice meditation techniques, explore wellness tips, and access information about classes and instructors.

2. Objectives

- To develop a user-friendly yoga and meditation website using HTML and CSS.
- To provide information about yoga poses and meditation techniques.
- To promote physical fitness, relaxation, and mental well-being.
- To display instructor profiles, class schedules, and membership plans.
- To encourage users to develop healthy and mindful daily habits.

3. Key Features

- **Home Page:** Introduces yoga and meditation services.
- **Yoga Poses:** Displays different yoga postures with descriptions and images.
- **Meditation Techniques:** Provides information about breathing exercises and relaxation practices.
- **Instructor Profiles:** Introduces yoga instructors and their expertise.
- **Class Schedules:** Displays available yoga and meditation sessions.
- **Membership Plans:** Presents different membership options.
- **Wellness Articles:** Shares tips about mindfulness, relaxation, and healthy living.
- **Responsive Design:** Makes the website accessible on different screen sizes.
- **Navigation Menu:** Helps users easily explore website sections.

4. Applications

- **Personal Wellness:** Helps users explore yoga and meditation practices.
- **Fitness Centers:** Promotes yoga classes and wellness programmes.
- **Yoga Studios:** Displays instructor details, class schedules, and membership plans.

- **Educational Institutions:** Supports awareness of physical fitness and mindfulness.
- **Online Learning:** Provides educational resources about yoga and meditation.
- **Stress Management:** Introduces relaxation and mindfulness techniques that may help manage everyday stress.
